"At The Earth's Core," first published in 1914, is one of Edgar Rice Burrough's most imaginative works. It is the first of seven books in the Pellucidar series and imagines a world inside the earth (five hundred miles beneath the surface) where the most advanced species is reptilian and the humans are still living in the stone age.

### **At the Earth's Core - Kindle edition by Edgar Rice ...**

At the Earth's Core, published in 1922, was the first of Edgar Rice Burroughs' Pellucidar novels. I've always found his books to be highly entertaining and ingenious in their imagining of strange worlds and that's certainly the case with this one.

### **At the Earth's Core (Pellucidar, #1) by Edgar Rice Burroughs**

Seismologists continue to probe the inner core. The core's eastern hemisphere appears to differ from the western hemisphere in the way the iron crystals are aligned. The problem is hard to attack because seismic waves have to go pretty much straight from an earthquake, right through the Earth's center, to a seismograph.

### **The Earth's Core - Its Structure and Possible Composition**

Caroline Munro, Actress: The Spy Who Loved Me. Leggy, brunette-maned pin-up actress Caroline Munro was born in Windsor and lived in Rottingdean near Brighton where she attended a Catholic Convent School. By chance, her mother and a photographer entered her picture in a "Face of the Year" competition for the British newspaper The Evening News and won.

### **Caroline Munro - IMDb**

At the Earth's Core David Innes and Abner Perry build a giant mechanical prospector with which they hope to uncover vast mineral deposits far beneath the surface. On the "Iron Mole's" first trip, however, they discover that their vehicle can't be steered.
