Coral Reef Fish. More than 1,800 species of reef fish, 140 species of corals and 500 species of other invertebrates are used by the pet, curio and home décor trades. Although trade can be conducted sustainably, wildlife populations are often overexploited to feed the demand for these animals. For instance, populations of Banggai cardinalfish,...

International Affairs. Corals make up a diverse group of marine animals, ranging from reef-building species that live in shallow water to species that can live at much greater depths (up to 3,000 meters). While coral reefs make up only a small fraction of marine environments around the world, they host more than 25% of the world's fish.
