

## *Making Sense Of Management A Critical Introduction*

### **Making Sense Of Management A**

Sensemaking or sense-making is the process by which people give meaning to their collective experiences. It has been defined as "the ongoing retrospective development of plausible images that rationalize what people are doing" (Weick, Sutcliffe, & Obstfeld, 2005, p. 409). The concept was introduced to organizational studies by Karl E. Weick in the 1970s and has affected both theory and practice.

The square root law of inventory management is often presented as a formula, but little explanation is ever given about why your inventory costs go up when you increase the number of warehouse locations. Even if you subtract the obvious suspects that would make your costs rise - extra rent, extra staffing, upkeep of multiple locations, etc. - your inventory costs still increase.

The Cynefin framework (/ k ə ' n ε v ɪ n / kuh-NEV-in) is a conceptual framework used to aid decision-making. Created in 1999 by Dave Snowden when he worked for IBM Global Services, it has been described as a "sense-making device". Cynefin is a Welsh word for habitat.. Cynefin offers five decision-making contexts or "domains"—obvious (known until 2014 as simple), complicated, complex ...
